

3-R's

Tackle Manufacturing

Manufacturers of Quality Fishing Tackle Since 1976

Crawler Harnesses

Our proven crawler harnesses are all hand tied on 17 lb. test monofilament line with three plain shank hooks. Of the four varieties available, all but the basic design (#10400), include beads and Colorado blades. Crawler harnesses are also available in nylon coated wire (add W to stock number when ordering).

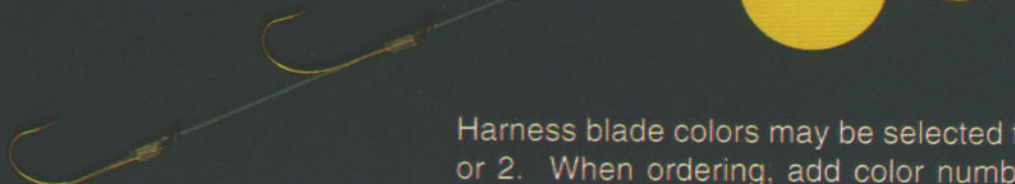

#10400
Crawler harness without
beads or blades

#202
Double blade harness
with No. 2 blade

#104
Single blade harness
with No. 4 blades

#204
Double blade harness
with No. 4 blades

Harness blade colors may be selected from Color Groups 1 or 2. When ordering, add color number to stock number. Example: #10404 - Single blade Fluorescent Chartreuse. Pegboard Packaging - One lure per pack. 24 packs per master bag.

Walleye Killers

Our walleye drifters are tied on 17 lb. test monofilament line and are available with a single long shank hook or double plain shank gold hooks. All come assembled with beads and #5 Indiana blades. Our "Diamond Eye" drifters (colors #01, 02, 03, 04, 06 & 21) have proven to be one of the most popular walleye lures available.

36" DRIFTERS

#401 SINGLE - Long Shank Gold Hook

#501 DOUBLE - Plain Shank Gold Hooks

FLOATING DRIFTERS

#402 SINGLE - Long Shank Gold Hook

#503 DOUBLE - Plain Shank Gold Hooks

Drifter blade colors may be selected from Color Groups 1 or 2. When ordering, add color number to stock number. Example: 40203 - Single Hook Floater, Fluorescent Orange

Perch Rigs

Our Perch Rigs are made with 20 lb. test hard-type monofilament line. Two arms with colored beads attract fish to bait. Hooks are # 6, and hand-tied to the rig. This perch rig works!

WILLOW COLORS

- #02 FLUORESCENT RED
- #03 FLUORESCENT ORANGE
- #04 FLUORESCENT CHARTREUSE
- #06 FLUORESCENT GREEN
- #08 GOLD

BEAD COLORS

- #01 PLAIN
- #02 FLUORESCENT RED
- #03 FLUORESCENT ORANGE
- #04 FLUORESCENT CHARTREUSE
- #06 FLUORESCENT GREEN
- #07 FLUORESCENT YELLOW
- #11 PEARL

#603 Perch Rig with Willow Blades (shown)

#602 Perch Rig with Beads (8mm, round)

When ordering, add color number to stock number. Example: 60206 - Perch Rigs with Fluorescent Green Beads.

Pegboard Packaging: One lure per pack. 24 packs per master bag.

Bass Busters

3-R's bass lures are made with 17 lb. test monofilament line with six beads and a No.5 Indiana blade. The hook is a bronze, size 1/10 Laser Sharp Automatic Worm Hook. The Bass Buster can be fished with live worms, 4 or 6 inch plastic worms, 3 or 4 inch curly tails or many other types of plastic bait. Our bass lures have been proven to be one of the most effective bass catchers available.

#604 SINGLE - Long Shank Laser Sharp Automatic Worm Hook

Bass Buster Lure blade colors may be selected from Color Groups 1 or 2. When ordering, add color number to stock number. Example: 60404 - Single Hook Bass Lure, Fluorescent Chartreuse.

Pegboard Packaging: One lure per pack. 24 packs per master bag.

Blade Designs

All 3-R's quality blades have been designed to attract more fish in a variety of water environments. Group 1 blades are two sided, painted (except nickle, copper and brass blades). Group 2 blades are nickle backed, painted one side (except gold, nickle and #'s 45-48 - glow-in-the-dark). Group 2 blades with crackle finish are nickle backed, painted one side.

#76 Truti Fruti

#77 Pearl / Orange / Black
(with black dots)

#78 Purple Tiger

#79 Blue Tiger

#80 Flor. Red Tiger

3-R's Tackle Manufacturing

ROBERT F. CHISM
1933 - 1999

Upon his son's request, Robert Chism began hand-manufacturing fishing lures in 1976. As his interest grew in the hobby, he was soon providing lures to friends and acquaintances and eventually selling to small fishing stores around the Michigan Inland and Great Lakes area. Robert was excited to learn that fishermen were having great success with his lures. Stories of "the big ones" that were caught with his crawler harness or drifters encouraged him to establish the **3-R's Tackle Manufacturing** company. The product line was expanded to include more hand painted blades and attractive colors. Professional package design was introduced and boasted many of Robert's own unique creations. Fishermen everywhere began to try and prove **3-R's** quality fishing tackle.

Today, **3-R's** tackle is still hand assembled in the U.S. and can be found in quality fishing stores throughout the country. Our product is still produced with the same meticulous workmanship and quality standard that Robert Chism established some 23 years ago. The Chism family will continue to maintain that commitment to our customers for many years to come. Past and present, we thank you for your interest in our product. From our family to yours . . . happy fishing!
